**REFERENCE: REFERENCE LETTER**

Dear Clint;

I am pleased to provide you with this letter of reference. You and your crew did an outstanding job on our new office renovation. It was a complicated job with many changes on a short schedule. Everyone worked hard and rarely complained which made a difficult job much more enjoyable.

It was always nice to run into you or one of your employees, they always took the time to say hello, to ask for clarification and even to spend time explaining what they were working on, if we asked.

We expected a lot from you due to the nature of this project. Almost every installation you made – from conduit to cable trays to light fixtures – is on display for everyone to see and critique. There has been nothing but compliments on the electrical work that was done here and I would say you exceeded our expectations.

Thank you for helping us get into our office on time.

We have always enjoyed working with Jet Electric and we look forward to the next project that we can work on together!

Sincerely,

**Stuart Olson Dominion Construction Ltd.**
